Aloha,

I am very concerned about the problem at Thomas Square.  
A lot of the dog clubs here on the island don't have very many places that we can hold our events. We are non-profit clubs with Permits and we are trying to educate the public on our breeds and all the different things you can learn with your dogs. Our dogs are well trained, in multiple things such as; obedience, rally, agility, etc.

It is very scary to say the least at the park, especially being a woman. We don't feel safe to use the restroom, bring our children, or even just being in the park.  
Please think about  
how we can solve the growing problems there.

Thank you,  
Linette Barrios
